We have provided services based on treatability study. Our Technical director is consulting for last 25 years to Starch industries, Pharmaceuticals, Foundries, Dairies, Sugar Industries, Distilleries, Pulp & Paper Mill, Raisin Processing Units, Hostels, Hotels, Hospitals etc.,. Where we have established a ETP & STP with latest technology. Our special ETP & STP are as per MPCB/CPCB/KPCB norms and based on gravity flow without Electricity and Operation/ maintenance cost with assured treatment throughout the day. The ETP & STP is already in work at more than 50 places.

We are successful in reducing the bioload, COD & BOD in final output by 25 to 30% against current results in ETPs.

We request you to kindly provide us an Opportunity to serve you for the best quality of STP/ETP water which can be safely used for Cooling Towers/Boilers/Secondary flushing, & Gardening purposes with PCB norms & spec. without any bad odour under stored conditions, & also very less maintenance on Cooling towers as Organic Online de-scaler helps you to keep the Condensor Approach & Delta to the most Optimum.

Best Regards.
